

Form for the Revision of the Non-Binding Demand Indications

Please specify the revision of the Non-Binding Demand Indication submitted to TAP during the Market Test 2023

From Entry-Exit point	To Entry-Exit point	Capacity Type (Forward Firm Long-Term)	Gas Years	Amount kWh/d

Please specify reasons for revision (optional)

Please specify whether the revised non-binding Capacity Requests are subject to **any conditions**:

Please specify whether the above non-binding Capacity Requests are linked to other Non-Binding Demand Indications submitted/to be submitted to other TSOs.

If YES, please specify name of TSO

If NO, please elaborate

Please indicate whether the capacity requested above is intended to be used for gas not matching the current natural gas specification of the TAP Network Code. Please include any relevant details. In case of hydrogen or other renewable and low-carbon gases, please indicate further details, such as, but not limited to the percentages of any blend and when the transportation is expected to start.

By signing this Revision Form of the Non-Binding Demand Indication Form initially submitted by the Interested Party, the Interested Party agrees to and accepts:

1. The information included in this Revision Form replaces the respective information included in the Registration and Non-Binding Demand Indication Form. All other information in the initial Registration and Non-Binding Demand Indication Form which is not changed by this revision form remains valid and the Interested Party re-confirms it.
2. That this document, including all data from the Interested Party can be shared by TAP with the National Regulatory Authorities, and other TSOs for the assessment of the demand for incremental capacity at their joint Interconnection Points.
3. That the submission of this Revision Form of the Non-Binding Demand Indications neither binds the Interested Party to submit a binding offer, nor does it bind TAP to proceed to any investment or realisation of Expansion Capacity.
